

LOCAL LAW 97:

WHAT IT DOES, WHY WE NEED IT, AND HOW IT WORKS

In 2019, New York City enacted Local Law 97 (LL97) which places greenhouse gas emissions caps on most commercial and residential buildings larger than 25,000 square feet.

Join us for a **free public forum** with council members, co-op board members, contractors, and other experts to discuss:

- Why the regulations are necessary
- How LL97's standards impact your building
- Tools and techniques for achieving compliance affordably

Date: April 11th 2024

Time: 7:00PM – 8:30PM

Location: First Presbyterian Church of Forest Hills

70-35 112th St., Forest Hills, NY 11375
